

## ANTLERLESS LICENSE APPLICATION OPTIONAL

Based upon 2007 license sales, 2008 antlerless license applications for the following DMUs are expected to be less than the quota. There is no guarantee; however the DNR expects private land antlerless deer licenses for these DMUs to be available over the counter beginning September 17. Compare the 2008 quota to the 2007 quota and the number of days needed to reach that quota to decide if you should apply or save the \$4.00 application fee and wait to purchase a leftover license over the counter. There are 59 days between the September 17 and November 15.
